Core Features

1

AUTONOMOUS PATROL

2

OBJECT DETECTION

3

CRIME DETERRENCE

4

REPORT & RIDE ON

Benefits

CONSTANT COVERAGE/RELIABILITY

24/7 security presence with autonomous patrolling and monitoring. Precisely performs duties without deviation.

COST EFFECTIVE

Reduces costs and the requirement to outlay expensive tech infrastructure. Nimbo is the first affordable security robot.

EFFICIENCY/FAST RESPONSE

Efficient information sourcing and security anomaly detection in real-time enables increased awareness & reduces response time.

INTEGRATION/SCALABILITY

Easily integrates with existing security management systems. Scales with tech advancements.

Applications

Reception / Educational Campus

Warehouse / Data Centre

Shopping Centre / Airport
